> I just saw this story on the news about the Anemas river. The EPA site isnt all that helpful for  
recommnedations. I didnt see anything on the DOH website. I was wondering if we put something  
together for people calling with questions? Is there anything I should do? I'm work the 12 hour day shift  
tomorrow in the ED.

> If we don't have a plan or I hear something from the group tonight, I call the center in the morning and  
talk things over with the spis about what is in the news and to avoid well water if they are on the flood  
plain. As for testing, I was going to respond it be done through their pcp and we can help with  
recommendations.
